TO THE MAN WHO THINKS.

LOOK yourself squarely in the face and see if you are not half ashamed to be without Ivory Soap in your house. Worse than this, your wife is without it. It is had enough for a man, though a man doesn't care how his comfort is mis-spelled. But a woman misses all these little helps to housekeeping. And Ivory Soap is one; its great potency makes it actually cheaper than yellow soap for general work. It floats.

CALLED HIM A TRAITOR.

Pettigrew Denounced During Debate in Open Session.

Endeavor on Part of Member from South Dakota to Secure Statement of Aguinaldo Made Part of Record. Precipitates Dramatic Scene in the Upper House - Senator Sewall, Lodge, Hawley and Spooner.

Washington, D. C., Feb. 7. - The life of General Lewellyn D. Sewall, a member of the Senate from South Dakota, was made a part of the record of the Senate today.

Senator Sewall, of South Dakota, was the first to speak. He said that he had been called a traitor by Senator Pettigrew, of New York, during the debate on the Philippine question.

These strong statements and many others equally strong were made from the floor of the Senate today.

They led at last, day after day, through Pettigrew's galling and whining at the administration, and offering resolutions intended to bring about the resignation of the President, but the late performance by the record of Pettigrew's statements.

GOAL FROM AMERICA.

Europe depends more and more on the United States for its naval supplies.

LONDON, Feb. 7. - The announcement that a firm of Cardiff coal shipowners has chartered to many foreign agents with 400 tons of steam power, is a significant step.

The fact is not mentioned, but as coal is so essential to the navy, it is probable that the United States is the source of the supply.

It is pointed out that it would be a mistake to suppose that the United States is the only source of the supply.

Ancient and Royal Game of Golf.

Is played with various degrees of skill, but all players agree that it is absolutely essential to have a good "tee," the little mound of sand upon which the ball is placed before the drive. Start right. The result will justify the pains.

So it is with your table. Supply it with the right sort of tea, a good tea, the best that you can buy.

If you get Chase & Sanborn's package tea, you may be sure on this point.

Flavor. Famous Oldfield is noted for its blue flavor, the Kobrow, an English Breakfast Tea, and the Orange Pledge, a Ceylon and India tea famous on account of its rich, wine-like body, are all equally popular. They are the best of their kind.

These teas come only in pound and half-pound tins, and are grown in tea gardens situated in high altitudes, which is an all important factor in the production of high grade leaves.

One pound makes over 200 cups.

the village of Lakeland and county on the Friday of March 20th at 10 o'clock. The four persons killed in the explosion were a woman and three children. The woman, who was 35 years of age, died instantly, the children being 10, 8 and 5 years of age. The man, who was 35 years of age, died of his wounds a few days later. The explosion occurred in the kitchen of the house, which was a two-story building. The cause of the explosion was determined to be a gas leak from a stove. The house was owned by a family who had lived there for many years. The explosion was a tragedy for the community, as it was a rare occurrence. The house was a well-known landmark in the village. The explosion was a reminder of the dangers of gas in homes. The community was shocked by the news of the explosion. The police were called to the scene and investigated the cause of the explosion. The investigation found that the gas leak was caused by a faulty stove. The stove was replaced and the house was made safe. The community was relieved that the explosion was over. The explosion was a tragedy, but it was a reminder of the importance of safety in homes. The community was grateful for the police and the fire department for their quick response to the explosion. Boers Assembling to Dispute Robert's Invasion.

Henson of Cronje's Defiance—Commanders Are Said to Be Hastening from All Quarters of the Two Republics to Meet Near Bloemfontein—Their Force May Be Ruined to 30,000 Men—News from Lady Smith.

Lord Roberts. This intelligence comes from Pretoria by way of Lourenço Marques. The commandos are described as being "from all quarters of the two republics."

No estimate is made of their numbers but the withdrawal of Boers from most of the places where they have been in control of the country, and the fact that the district near Lady Smith may raise the resisting forces to 30,000 men. This figure assumes that the Boers have been 60,000 and 70,000 men in the field.

The gathering of this army across the path of Lord Roberts gives significance to the fact. Cronje's steadfast defiance. He has said that he will fight to the last, or to day's end, and whether he is believed or not, he has given time for his dispersal. Pure foolishness to get together and to prepare positions to re-

The war office had nothing after midnight to indicate his collapse and he was held out for a few days. The correspondents seem to have no exact information respecting his resources. Some say that he has plenty of food, other of shot or ammunition, others assert that he abandoned his food supplies, but kept abundant supplies of cartridges. DEMOCRATS SWORN IN.

Minor Officials Demand Possession but Republican's Surrender.

FRANKFORT, Ky., Feb. 28.—The state contest board to day awarded certificates of election to all of the democratic contestants for minor state offices. Immediately afterward the contestants were sworn in, and repaired to the state house in a body, where they made demand of the board of republic incumbents for possession of the offices. But the demands were not acceded to. Immediately after the swearing in of

The democratic officials' injunction suits were filed by each of the new officials seeking to oust the present incumbents from office and enjoining them from exercising their rights, duties and prerogatives now pertaining thereto. The installation of the democratic officials will have the effect of tying up tightly very branch of the state government, pending a decision of all of the contests by the courts.

Livestock to an Washington, Feb. 26.—Exercises appropriate to the celebration of Washington's birthday were held at the National Academy of Music, the scene of the actions of the Revolution. There was a large representative audience present. One of the boxes being occupied by President McKinley, Secretary Hay and the cabinet. The exercises were begun by delivered by Senator Chace of Michigan, who said that this country had become one of the great powers of the world and intended to remain so, and that the resolutions on the other side of the globe had been retained because they were needed as a market for our surplus products. The open door, asserted the speaker, was not a threat to the United States, not by armies, but by the diplomacy of William

The tables tipped, and the stools tilted, and the benches stead raised, and the chairs upset, and it seemed as if the spirits everywhere had gone into the furniture business. There is only one God, and that God is Jesus Christ. The church is not a building, but a community of people who love God and love each other. The church is not a hierarchy, but a family. The church is not a religion, but a way of life. The church is not a sect, but a movement. The church is not a denomination, but a communion. The church is not a church, but a church.

THE BEST THEY KNOW.

Remember the old lady who rode the first time on a railway train. There was a frightful collision, but when the rescuers reached her she was quite calm. She said she supposed they always stopped that way. The story well illustrates why so many women are satisfied to live without Ivory Soap. They have never tried it! Naturally enough, they think that annoying odors, sharp chemicals, and wasteful greasiness are common to all soaps.

CHAUNCEY M. DEWEY.

His Great Speech in the United States Senate on the Philippine Question.

The Senate heard last consideration of the Philippine question. It was the first time since the late war that the United States Senate had heard a speech by a man who had been a general in the United States Army.

Mr. Dewey, in the words which have been said to him by every one who has heard him, was a man who was a general in the United States Army. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army.

Most of the questions which were asked of him were of a general nature. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army.

I have heard of no man who has been so successful in his career as Mr. Dewey. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army.

lation with this about the Government and the people of this country. The Government has been a failure. The people of this country have been a failure. The Government has been a failure. The people of this country have been a failure.

I think it will be admitted that there was in the far east one who was a general in the United States Army. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army.

Our country is a great country. It is a country of great resources. It is a country of great power. It is a country of great glory. It is a country of great honor.

Many of the questions which were asked of him were of a general nature. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army. He was a man who was a general in the United States Army.

It is said that Ross Okober has consented to have a special session of the Legislature called by Governor Hill on the National Democratic convention at a delegate at large. Whanaa grand concession!

The Senate passed the bill providing a commission to form a government for Hawaii, this week, by an overwhelming majority. There was really no ground upon which to have opposition to the bill.

President McKinley is receiving sincere commendation for his ready manner in which he stated the position of the Administration, in his late speech at the dinner in New York. We would like to know what the "anti-expansionists" can find to criticize in that speech.

What is the use of putting any more money into the state fair? The money agricultural exhibits throughout the state show all there is at the fair and an accumulation every necessary purpose. The state fair is a continual drain on the revenues of the state without any corresponding benefit.

We are great pleasure in publishing the great speech of Senator Charles M. Depue, in the United States Senate. He made a powerful argument in favor of upholding the policy of President McKinley in the Philippines, and pictured in glowing and eloquent periods the advance of civilization and commerce which follows the American flag in that far-off country.

General Butler, military governor of Havana, was in Washington last week to confer with President McKinley and Secretary Taft on existing conditions in Cuba, and before starting back to Havana. The president expressed himself as pleased with the confidence as I learned that he had, and I have reason to believe that he will be glad when the people of Cuba are in a position to take the government into their own hands.

Senator Depue, chairman of the senate committee on Foreign Relations, which is still considering the Neutrality canal treaty, never expresses an opinion without he knows what he is talking about. Therefore, when he expressed the opinion that the treaty would be ratified, it carried more weight in Washington than the stories, circulated largely by paid lobbyists, to the contrary. The senator's knowledge of the opposition to the treaty has to be better foundation than those alleged to President McKinley contemplated withdrawing the treaty from the senate.

The last but not the least, the foundation of the President McKinley believes the treaty is a good one, and that it will be ratified.

The peace in London are all being reported to the end of the world. This is the great peace in the world. It will be especially advantageous to the Philippines. It will relieve the cost of all the unnecessary to the islands, and this aid to the personal comfort and to the general peace in the world. In fact, this will be more for American rule in the islands than could be accomplished by promises of autonomy, or even of independence. Probably the peace in London will be a great aid to the peace in the Philippines.

The more intelligent among them, it is likely, are against independence in the present stage, as that would mean anarchy and destruction.

Postmaster Daniel C. Middleton, of the new ferry commissioners by Governor Roosevelt on recommendation of Senator John R. Brown. The other members of the commission just appointed by the governor are Austin W. Brown, of Jefferson county, DeWitt H. May, of Lewis county, and H. Frank Ward, of Queens county.

The members of the old commission have all been named. Only one of these new appointments is in the first preserve. The commission as a whole is probably no improvement on the old one. But upon months back to be filled. It is a good thing to have in Queens county now a day.

BRITISH FLAG OVER
BLOEMFONTEIN

Lord Roberts Announced He Occupied the Free State Capital on Tuesday.

**Welcomed by the People—Officials of
the City and Republic Surrendered
the Keys of the Public
Offices to Roberts, &**

March 13, 1871, is conclusively announced that Lord Roberts has returned to Bloemfontein, and that the British flag is flying from the top of the capital. This is the text of Lord Roberts' dispatch:

"BLOEMFONTEIN, March 13, 8 P. M.—By the help of God and by the bravery of her loyal subjects, the troops under my command have taken possession of Bloemfontein. The British flag is flying from the presidency, evacuated last evening by the Boers. I am in command of the Orange Free State. Mr. Fraser, member of the late executive council, has been appointed secretary to the late government, the landowners and other officials met me two miles from the town and presented me with the keys of the town.

"The enemy have withdrawn from the neighborhood, and all seems quiet. The inhabitants of Bloemfontein give the warmest and welcome.

WISDOM TO RESTORE PEACE.

Reason to Believe the United States

WASHINGTON, March 14.—There is reason to believe that the United States government will offer to mediate to restore peace between Great Britain and the South African republics. This has been said by a high official of the State Department, who added that mediation, which would be distinctly antagonistic to Great Britain, and according to the official, would be accepted without exception governed by the State Department in the past, could not be proposed by the United States, which is unacceptable to both parties to the war.

But the United States might very properly offer to mediate to restore the transmission of appeal for peace and the terms upon which peace could be restored.

If this belief is well founded, then Adolphe Jag, United States consul to London, will be authorized to begin transmitting to the British government through the double intervention of the British ambassador in Washington and the British minister to the United States, an application from President Kruger and Sir John Manners, an agent from Free Kruger and Sir John Manners to be informed of the United States' new offer.

The facts in the case have fully developed in a day or two.

Offer is Rejected.

LONDON, March 14.—The United States' offer of mediation to the President Kruger and President Snyman, has been rejected by the British government. The British government has refused to bring about peace in South Africa.

The representations made to Great Britain by the United States' offer of mediation made to United States' Consul Adolphe S. Hay at Pretoria, with the British government's refusal to accept the State Department could not be in the interests of peace would be gladly

Madison, Vt., June 17, 1836. He was educated at the University of Vermont in 1850, and at once took up the study of the law with Horatio Seymour, who was admitted to the bar of the state of Vermont in 1850. He was admitted to the same position as a lawyer. Under the administration of President Fillmore he was second compiler of the treatise on the laws of the state of Vermont. He was elected president of the Vermont constitutional convention and in 1880 was elected president of the Vermont bar association. He was extensively on constitutional and international law, and in 1881 was elected Honorary Professor of Law at Yale, which position he held until the time of his death.

In April, 1883, President Cleveland appointed him United States minister to the Netherlands. He was also appointed one of the international commissioners of the Behring sea controversy as well as also one of the United States representatives to the Hay Convention at London. He was honored with the degree of doctor of laws by Middlebury College in 1887.

In 1887 the Edward J. Phelps professorship of law at Yale was endowed in his honor by his family.

Prof. Phelps resided in this city only during the winter and spring months of the college year and claimed Vermont as his residence.

Col. Shepard Removed.

ELIMIA, March 18.—Col. Charles O. Shepard, commandant of the New York State Soldiers' Home, has been removed from his position because of the vote of the six remaining members of the board of trustees. This action was the result of the charges preferred against him by his brother-in-law, John Phelps, in the judgment of the board, have been sustained.

DENMARK.

—Several from town went to hear "The Peasants" at Carthage last Friday night.

—The large ice house at the Crown Brand factory was being filled with ice last week.

—Crows have been uncommonly numerous since March 22nd, and they are being shot.

—Dorville Hubbard and bride will occupy Cook brothers farm near Copenhagen this week.

—Fay B. Hildgett started last week on another round of preaching for eastern markets.

—Miss A. Corcoran, of Copenhagen, has commenced her spring term of school at St. Mary's.

—J. Thompson commenced hauling logs at Carthage again after the roads became passable. He has a large contract for the export of sugar for Cook brothers.

—F. C. Warner thinks well of his trotting brood mare with a record of 2:30. She has a fair stopping pedigree by Barika, and her offspring this year should be a wild cutter.

—Last week friends and relatives here were pleased to learn of the sudden death of Sylvester O. Cook at his home in Boonville. He was a son of the late J. E. Cook, of Denmark.

—J. E. C. Freeman has been hired to work as a car load of lumber at their works to be made into cheese box heads, as their old stock had become exhausted and their saw-mill had not started yet.

—A. and H. E. Cook are stacking up the material for their mammoth new barn to be erected on the corner on one of the Union Home farm.

—Fred Fick, this barn, is intended, will replace anything of the kind in this section.

—We doubt if there were ever more milk produced by the farmers in the time than was reported after the roads opened. Owing to the poor sleighing before the storm they had allowed their feet to run low, and when the roads became passable a general rush took place.

—One evening last week Mr. and Mrs. C. B. Clark opened their spacious parlor to a large company of invited guests, the occasion being one of a series of parties given during the winter by the pleasure loving people of Deer River. A fine supper was served and a happy time was had.

—Farmers who have taken their milk to the stations through the season report a good living price for that commodity. When one dollar per hundred can be realized for milk, it is a good price, and all over that greatly to the benefit of the farmer. The average for the season will be well up.

—Miss Anna D. Schorge, of Carthage, has taken in between \$1,500 and \$1,600 from the cows on the farm at the station. Others have received good sums.

—In preparing his speeches for this year, Mr. Bryan will have to exercise care in order to avoid collisions with his predictions of 1890.
—Last year sixty-two new silk mills were started in the United States. Still, the labor market is only the opportunity to show its superiority.

—A treasury surplus of \$20,000,000 for the nine months ending March 31 is a recommendation for Republican management that speaks for itself.
—The little man who proposes to build the property locomotive of the track are the same who predicted national calamity in case of the defeat of Bryan in his bidges.

—The official Republican managers in Cincinnati named for \$380,000, \$3,200. As the Democrats carried the city last fall the straw is blowing in Ohio in the wind for the presidential year.

—American manufacturers are sweating everything before them in Siberia. When we have established a great commercial market in the Orient will the Orient will be unparalleled.

—In several of the Philippine Islands a civil government participated in by the natives has been established, and the inhabitants for the first time have become acquainted with fair, liberal laws and security from robber bands.

—Within six months the price of corn has advanced one-third. Four years ago an army of contractors was stating that corn would soon be a worthless incombustible unless the money of the country was degraded to the free silver level.

—John C. Hay, a New York broker, has been sent to jail in default of payment of a \$20,000 judgment for alienating the affections of Mrs. Frederick Hinckley, of the same city. This is a case of libelous libel. This freedom may take the place of labor voting.

—In 1892 the people voted for a change. In the four subsequent years they found themselves without a cent of change. This year they are to have their pockets and pockets throw away the substance for the shadow again, even to plumb the democratic party of post-1892.

—Not a little amusement has been caused in Washington by Mr. Grover Cleveland's rather suspicious act of tossing bouquets at office-seekers, which he makes as if he were not doing another office-hunt himself. During his two terms as President he made no attempt to conceal his contempt for office-seekers, big or little.

—The law of growth of the population of the United States as demonstrated by Mr. Henry S. Pritchett, superintendent of the United States coast survey, (shown to have been nearly accurate in reference to population in past centuries, and by the same laws, the population of the United States in 1950 at 170,000,000, while at the end of the century, in the year 2000, the population will be 350,000,000.

—Secretary Fugate's estimates of the receipts and expenditures of the government for the current and the next fiscal year have been sent to the House. His figures show that there will be a surplus of \$70,000,000 for the next fiscal year, and of \$20,000,000 for the next fiscal year. If there are no changes in present laws, there is a strong count against the republicans in Congress in favor of legislative making, motive reductions in internal revenue taxation as early as possible, but the difficulty of getting speedily across this legislation will probably prevent its being taken up this session, although a bill providing therefor may be introduced and referred to the Ways and Means Committee of the House, in order to give the Committee an opportunity to have a bill ready to start the beginning of the next session.

—The British campaign in South Africa is using up 5,000 horses a month, and orders for 35,000 horses have been left with agents in the United States. The big horses of the West are desired and if possible they will be picked up in Illinois, Kentucky, Missouri and Iowa. The demand comes from the farmers of Minnesota and the Dakotas are looking for horses to do their work. Up to this exclusively wheat country it is supposed to be cheaper to buy teams every year than it is to buy horses and secure fodder.

—The store which has been cut up into horse food is burned, and the wheat is shipped before it is ground, so there is no "feed" in the country. The "wheat" from Dakota and Minnesota has a more profitable market for horses than dairy country. A few demands like the present for Western horses will cause a change in the methods of northwestern wheat growers.

—An increase of \$20,000,000 in the bank note circulation is already in sight as a result of the enactment of the new currency law.

—The Pennsylvania Democrats will go to Kansas City solid for Mr. Bryan. Later on Pennsylvania will go into the electoral college solid for President McKinley.

—Congress has passed the appropriation for the distribution of free seeds and has increased the appropriation for farmers' bulletins from \$85,000 to \$100,000.

—Lincoln, the home of Colonel Bryan, elected the Republican national picket the other day by the largest majority it has returned in years. The Colonel has a good-bitch bunch of assembly's country right at home.

—On the 14th inst. Hon. M. S. Quay will again become a Senator, the Senate having agreed to vote on his case upon that date, and it being certain that a majority favor his being seated.

—\$20,000,000 during the current fiscal year, and a surplus of \$20,000,000 during the year ending June 30, 1900. The Secretary of the Treasury has used to predict and the predictions were always verified under Democratic methods.

—Harmon, enthusiasm and dispassionate character of the proceedings in Cincinnati state convention held in New York, Tuesday. Unbounded enthusiasm greeted the mention of the names of President McKinley and Governor Roosevelt, and this is no mistake.

—The significance of the demonstration from present indications both will be re-nominated and elected.

—Secretary Root officially congratulated the Associated Press, reporting from the Philippines, saying that more troops were needed over there, and stated in the most positive terms that the reports were absolutely without foundation. There is a screw loose in the Philippine service of the Associated Press. It has been late persisted in everything exaggerated reports of everything on the islands which could be twisted into discrediting American occupation.

—It seems hard to believe that the managers of the Associated Press would overlook their own advantage to the extent of allowing their service to be used to make political capital but odd things happen on the shore of Presidential campaigns.

—Gov. Wood again warns Americans against the dangerous folly of going to Cuba without the means to look back to the Philippines, saying that the islanders are already in the debt as numerous as to place a heavy burden upon the military authorities, by whom they must be fed and clothed. This year they are to have their pockets and pockets throw away the substance for the shadow again, even to plumb the democratic party of post-1892.

—The action of the Senate Committee on Elections in unanimously reporting Mr. W. J. Bryan, of Missouri, is not entitled to a seat in the Senate, as the sternest rebuke of the corrupt use of money in politics ever administered in this country, and it is a mark of congressional that there was no objection of sentiment in the committee; being non-partisan the rebuke will be more effective. There is the slightest doubt that the Senate will vote as the committee recommended.

—Mr. Clark resigns before a vote is taken. The committee would have reported for expulsion had it not been for the absence of positive evidence showing that Mr. Clark had knowledge that any money had been contributed during the State campaign preceding his election to the Senate was used to bribe members of the legislature to vote for him.

—President McKinley signed the Porto Rico bill, which notwithstanding the democratic bluster and brag the House passed by a vote of 161 to 135, to the great deal of pleasure, not only because he believes that it makes the best possible provision under existing circumstances for Porto Rico but because he enjoyed the charge of the democratic bluster, while maintaining the belief that the measure was fraught with such dreadful consequences for the republicans party, resorted to such extraordinary efforts to prevent its becoming law. Representatives Cleveland, of Ohio, and Dalzell, of Pennsylvania, severely attacked the demand for their hypocrisy in pretending to fear that the republicans were about to do something to the detriment of the islanders. Of course, every body knows that if the democratic bill really believed that the bill would do harm to the republicans party they have been only too glad to have seen it passed.

—Bryanism Cannot be Cured by local application, as they cannot reach the seat of the disease, and it is by constitutional means only that it can be cured. The case of the personification of the Bryanism in the person of Mr. Bryan is a case in point. It is entirely clear that Bryanism is a disease that is not cured by local application, but by constitutional means only. It is a disease that is not cured by local application, but by constitutional means only.

From Paris to New-Jersey, Lyons, Michigan and Massachusetts—Canaan and Nice.

Nice, April 4, 1900.
The ride from Paris to Marseilles to the coast of the Mediterranean sea is about 500 miles and consumes thirteen hours. The first class compartment is very comfortable, but there is no smoothness in running than in cars on the best American railroads. These cars are open by side doors and each compartment has room for six persons. The seats are superbly comfortable. The seats are cushioned higher than your head. Across the floor of the apartment are brass plates filled with hot water, on which you can rest your feet and keep warm. If the heat becomes too oppressive, you can pull a lever on one side and turn it off or on 16 suit your circumstances. Along the side of the apartment runs an aisle about two feet wide. There are dining cars on the train, as well as in the station. The ride from Paris to the coast is intensely interesting to an American. The fields, woods and scenery are so different from our own country that you are lost in admiration. The whole country is like a garden. Every red of land is cultivated. The little villages, consisting of quaint looking houses, have no appearance of the hundreds and thousands of years old, which many of them are. Chief of which are Dijon, Lyons and Avignon. Dijon grows the finest grapes in the world. The grapes of other wines made from these grapes is of the best quality. Lyons, the second city of France, is a city of 400,000 inhabitants. It is famous by its world-wide reputation in the manufacture and exportation of silk. Lyons is a city of 400,000 inhabitants. MEMORY OF LAFAYETTE

Status Presented by Americans Unveiled in Paris.

A beautiful address was delivered by the Hon. Archibald Ireland, President of the American Legation in Paris, at the unveiling of the Lafayette monument in Paris, France, June 22, 1900.

The ceremony of the unveiling of the Lafayette monument in Paris, France, on the 22nd of June, 1900, was one of the most important of the week and was unusually impressive.

The occasion brought together the President of the Republic, the French ministry, members of the French academy, all the foreign ambassadors, United States Ambassador Porter, and the distinguished officials of the exposition and of Paris.

Archibald Ireland made the official speech of presentation in front of the monument and the American Legation made the speech of presentation in half of the youth of America.

The statue was unveiled by two boys, representing the schools of France and America, Master Gaston Hennequin, a great-grandson of Lafayette, and Paul Thompson, the son of the projector of the monument.

In his speech, the president referred to the generous conduct of the American Legation in Paris, France, and the American school children for this additional proof of affection for the illustrious Frenchman.

Robert J. Thompson, the originator of the idea of the monument, made the address in behalf of the children of America and his Latinian L. Voss representing the Dignities of the American Republic.

Archibald Ireland made the official speech of presentation in front of the monument and the American Legation made the speech of presentation in half of the youth of America.

Archibald Ireland made a brilliant address in which he described the work of the American Legation in Paris, France, and the American school children for this additional proof of affection for the illustrious Frenchman.

on consulting my account book I find some entries of recent date which will give an idea of the cost of maintaining a small family in Paris. To begin with

I have a furnished apartment of two large rooms with a private hall, kitchen and bath-room. There is included the service of a woman to market and do the housework. For this I pay \$50.00 month. This apartment was rented at this rate in March before the opening of the exposition. When I leave the

concege intends to repl the place for \$80 per month. During the spring months I purchased soft coal at 70 cents per sack of two bushels. For kindling I purchased little buundlogs or kindlings for five cents each and found that in the hands of my generous maid one bunch would suffice for two fires.

As for provisions, I find that during the last week of the year the

now at its height.) I have paid 40 cents per pound for butter, 5 cents each for small tomatoes, 54 cents a dozen for oranges and 18 a dozen for eggs. One bunch of lettuce costs 8 cents, while

very large bunch of asparagus, enough for eight persons, costs 40 cents. Meat is quite expensive, a pound of beef steak selling for 50 cents and a pound of veal for 66 cents. Six thin slices of boiled ham cost 35 cents. A little bag of sugar containing one pound costs 15 cents. In America large potatoes are popular, here very small half grown ones are preferred. These potatoes resemble the small ones boiled up for the pies on an American farm, and they

sell a small package with enough for one meal for two persons for 10 cents. All household expenses included, one person can now live in Paris at from \$1.60 to \$5 per day in respectable pensions, or two persons can live in a small apartment at from \$100 to \$300 per month.

To Keep the Boy on the Farm.

If the farmer wishes his son to follow his own vocation it is well for him to foster the boy's interest in that direction. Too many farmers expect their sons to work, but never take the trouble to make the labor interesting to them. Then they wonder why the boys complain of the dull monotony of

Before the boy is old enough to take any active part in the farm work he

may become interested in it. His clay garden plot may be a playground, but it is also a place where he learns to use tools, to sow and to cultivate the

ground and, later, to gather the fruit of his labor. It is not only amusement that he serves as an object lesson, and as he grows older and more experienced, it gives him employment, and may become the source of a small income. He may be given a pig, a lamb, or a calf to claim as his own, even before he may become interested in it and feel a sense of proprietorship. In this way the farmer may cultivate any natural inclination the boy may have towards agriculture, and prepare him to take

his place on the farm and his share of the work, not only because he is compelled to do it, but because he likes and is interested in it.

Milledge Law Unconstitutional.

Justice M. L. Wright has handed down a decision of great importance in the case of Frank T. Watson vs. the D. L. & W. railroad company, tried in Rome in October last. Mr. Watson sought to recover a penalty because the railroad refused to issue him a mileage book at two cents a mile. Justice Wright finds that the law upon which the action is based is unconstitutional.

—Negotiations have been completed by which the Aldrich, Denn and Aldrich mill property at Natural Dam and 38,000 acres of forest land along

possession of the Alrich Paper manufacturing company. The new company will have a capital stock of \$350,000, and the directors for the first year will be Newton Aldrich, of Grafton; Alfred D. Hemmington, C. R. Hemmington, D. B. Hemmington, George B. Kemp, Nelson R.

Swallow and Samuel Child, of Watseka, were to let for the mill and the company would let for proceed at once with the construction of the mill, which will have a daily capacity of 25 to 25 tons. Nelson B. Swallow, who was for many years connected with the Remington Paper company, has been largely instrumental in organizing the new company, and it will be closely identified with the manufacturing of the new water control.

Exposition at Buffalo in 1901 will mark the northern boundary of the Plaza and Court. This elaborate and beautiful architectural ornament will serve as a magnificent crestion, treated with fine artistic skill. The combined massive arched entrances or gateways at the extreme eastern and western colonnade. Two open towers surmount the sides of each arch, and from the colonnade is a pergola or arbor over which growing vines will be trained. The electric street railway cars as well as the steam ronds will unload many of the Propylaea, which is reached from the tracks by a spacious subway.

One Rostets and Is Killed—First at Omaha

ST. LOUIS, Mo., Aug. 5.—(Special Telegrams.)—The Pullman passenger train that was held up at Omaha last night was the first Pullman passenger train to be held up since the Pullman passenger train was held up at Omaha last night.

SALINA, Kan., Aug. 5.—Eastbound passenger train which left Denver last night, was held up near Omaha, Neb., about 11 o'clock of Monday. The passengers in the Pullman sleeper were robbed \$1,000, their money and valuables.

THAT CANTER INNO. The Rev. P. Parkhurst, of Boston, presents the notion that it will have nothing to do with Methodism, and that it will be a new organization, independent of all partialities. The Rev. Dr. Charles Parkhurst, upon reading a New York dispatch concerning the Boston case, President McKinley, said: "So far as the Methodist church is concerned, I have nothing to say." The editor of *Zion's Herald* writes: "The dispatch asserted substantially that the church had no official connection with the wholesale, denouncing McKinley administration for its attitude toward the contest, and that the church had no connection with any of the numerous temperance societies and church organizations for distribution where the contest was being waged." The dispatch further asserted that "one of the most important factors in the dis-

The Methodist Episcopal church, which President McKinley attended, was the first to be despoiled.

The dispatch stated that "it is with knowledge of the number of Methodists in the city that the Catholic priest, Father Coker on Monday said that the Protestant cantors would be the first to be despoiled." The Catholic priest said, "I am sure New York state this fall."

"It is true," said Mr. Parkhurst, "but I am sure that the Catholics are trying to work up an issue out of this against President McKinley."

Endorsed by Clergymen.—The board found a most prosperous condition of affairs in the churches, especially in the rural country.

From our conference with increased interest, we learned that the value of farm lands has risen considerably, that good prices are being obtained for the eggs, and that the farmers are being paid off.

The board has found that the tax law has been interpreted in an intelligent and conscientious manner, and that there is an honest effort to pay taxes on the personal property as possible. The same difficulties that have ever been met with in the collection of the church dues are still experienced.

WRET FOR M'KINLEY.

Editor Kohlsaat Says Illinois Is Not a Doubtful State.

He Believes the Threat of a Split in the Republican Party Is Not a Doubtful State.

Mr. H. H. Kohlsaat, proprietor and editor of the *Chicago Tribune*, has been looking in New York several days at the political situation in the East and has come back with a report that the Republican Party is not a doubtful state.

At no time did I feel any doubt as to the strength of the Republican Party in the East. It is not a doubtful state. It is a solid state. It is a state that will stand by its principles and its principles are the principles of the Republican Party.

When the uprising of the Boxers began, the Hon. Edwin H. Conger of Iowa was the state's daughter and son. He was a man of high character and high ability. He was a man who was not afraid to stand up for his principles.

ROOSEVELT'S TRIP.

Four of Month at Six Weeks in West. Secretary of State and General Staff.

Chicago, Aug. 14.—Gov. Roosevelt will leave Bryan's home state during his campaign, a trip through Nebraska is planned to follow a month's speaking tour embracing the northwest and Pacific slopes. An announcement to that effect was made by Secretary Perry S. Heath of the Republican and Committee, who has returned from the east to-day, after conference with Senator Hanna, Gov. Roosevelt's national campaign.

From Labor day, when Gov. Roosevelt will make his first speech of the campaign in Chicago, until the end of September, the Rough Rider will spend his time west of the Mississippi river. All of the month of October will be occupied with campaigning in the Indian, Michigan and Ohio, with the exception of a few days in West Virginia, which the republican managers think will be made as the result of a few Roosevelt speeches. Two or three weeks will be spent in the west, in the state of California, where he will be seen by Roosevelt during the campaign.

Gov. Roosevelt will come to Chicago to take charge of the campaign in the state of Illinois. He will be seen by Roosevelt during the campaign. He will be seen by Roosevelt during the campaign.

WEST FOR MCKINLEY.

Editor Kohlsaat, St. Louis, Mo.
Dear Sir: I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the election of McKinley and Roosevelt to the Republican National Convention at St. Louis, Mo., on the 16th inst. I am sorry to hear that you are not in the best of health, but I am sure that you will be able to attend the convention and do your duty for the party.

H. H. Kohlsaat, proprietor and editor of the Chicago "Times-Herald," has been looking into the political situation in the West, and has brought with him a fund of encouraging information about the prospects of Republican success in the Central West. Mr. Kohlsaat was among the few Republicans who, immediately after the Philadelphia convention, left the East for the West, and he has since been making a tour of the West, visiting the various States and Territories, and gathering information about the political situation in each.

At no time did I feel any doubt as to how the West would throw its vote. It is a matter of course that the West will vote for McKinley and Roosevelt, but I am sure that you will be able to convince the West of this, and I am sure that you will be able to do your duty for the party.

Sheboygan, Wis., Struck By a
Terrific Windstorm.

The plant of the Ootenburg & Sonnenman Co., was partially wrecked.

BLOODY WORK IN PEKIN

The wind wrecked building after building with the greatest rapidity and there was little warning of the approach of the storm. The people in every case, however, were out of their houses before the storm struck and those who were hit by flying debris were only slightly injured. In the factories the employees were in many cases bruised

and cut from the wreckage. No one was killed.

WHAT SOUTH AFRICA IS.

The Five East Coast Landing Places
—Best Natural Signboard on Earth.

You land in South Africa at the foot of a mountain 3,600 feet high. They

call it Table Mountain, and the vast of mist that, excepting on very clear days, overhangs it, South Africans are pleased to term the "Tablecloth." Presenting a front of solid rock 1,000 feet in height perpendicular as a wall, and for half a mile on top level, this mountain offers the best natural signboard on earth. Time and again have English firms attempted, with fabulous sums, to secure it for advertising purposes, but, as yet, there has been no such attempt.

Table Mountain marks the tip end of the Dark Continent. Below it peaks the city of Cape Town, a beautiful bay stretching out in the foreground. On the west the mountain breaks off abruptly, and the railroad skirts about it to the interior. On the east it slopes off into a hilly, picturesque formation, known as the "Lion's Back" and then

gradually rises into the Drakensburg Mountains. This is the only great mountain range south of the Zambezi, and by noting its location one may understand in a trice just what South Africa is geographically. Stemming along the east coast from Cape Colony northward, you have the Drakensburg in view nearly all the way to Beira, a distance of 2,000 miles. In Cape Colony and Natal the mountains in many

places dip to the water's edge, and with a field glass one may see on their craggy peaks smoke curling up from the native villages. In Portuguese territory the mountains recede slightly from the coast, and at Delagoa Bay there is an intervening stretch of lowland twenty miles wide. At Beira this has increased to sixty miles. At the Zambeze

To get in the interior of South Africa from any of the five east coast landing places, Port Elizabeth, East London, Durban, Delagoa Bay and Beira, one must cross a short extent of lowland and then ascend steep mountains. Having arrived there, the traveler is conscious of little or no descent, five-sixths of the whole interior being a vast plateau that extends to the Zambesi on the

north and to the Atlantic on the west, and varies in altitude from 3,000 to 6,000 feet above the sea level. A fringe of tropical country, where bloom the magnolia and the rose; where flourish the banana, the cotton and the tea plant; a long stretch of mountains run parallel with the Indian Ocean, the highest peaks of which are capped with

snow, and in whose valleys were tracts of wheat and corn; a vast prairie, dotted here and there with patches of scrub woodland, mission stations and immense farms with millions of sheep and cattle grazing thereon; a few thousand hamlets scattered like oases over a great landscape made black by the native Africans who live in thatched huts, and wear but a breachcloth; a dozen large towns where is heard the clang of anvils and bellows, and the

suppressed. If a plank to that effect should be placed in each of the great parties platform, this trouble over here would soon end, but as it is now they have every reason in the world to think that, as they express it, 'if the great Dr Bryan is elected the Americans will leave the islands at once.'

"This poster I enclose to you speaks much louder than anything I can say, and I send it you that some of my friends who are on the side of the great Dr. Bryan, may read it and more thoroughly understand the situation over here. If it was not for the assistance this rebellion receives from the States it would quickly end.

"Our friends in both parties can assist us in quickly bringing this trouble to a end by declaring that, first of all things that may follow, the rebellion must be suppressed. After that has been accomplished then let our statesmen, or the people, decide what shall be done for, or with the Philippines.

"I send to you this poster, trusting that you will permit some of our friends at home to read it, and by so doing, it

dence of its own country, emancipating it from England, sustains and defends to day with ardor the Declaration of Independence of the Philippines, and that the Massachusetts periodical having the widest circulation among the agriculturists of the country, known under the head of the *Farm and Home*, having interested its subscribers in the

subject, asked that they manifest themselves in favor of the independence of the Philippines or their annexation with favorable results.

Wood's speech is considered by the Cubans here to be the most important declaration made since the American occupation began.

our right to appeal to the conscience of the thousands of high-minded Democrats who abhor baseness and cowardice, and are quick to see and disown them. We appeal to these Democrats to strike hands with us at this crisis of the nation's history, for they have been betrayed in the house of their friends and, if they are far-sighted, they must

The Democratic managers were surprised yesterday to learn that English would declare for McKim but there were expressions of hope Mr. Taggart saying that he hoped was not true but from what he heard he was inclined to believe the report was well founded. It is said a formal statement will be issued.

Are the Americans of to-day to generate sons of noble spirit?

Now I am still a Populist, and no reason why I should change can not, and will not vote with that helps to kill United States or which help the enemies of the try. When my party gets back it once was, then I am with it as it sides with copperheads and it can count me out."

tion relating to the election of additional judges of the supreme court, which was then dissolved, (if the assembly consent), that the first article of the constitution be amended by adding the following section: "The first day of Section 4. At the general election next after the adoption of this amendment, there shall be a contest for the office of chief justice, and one count through each of the four judicial districts, for the election of the next judicial district, four members of the supreme court in addition to the four members of the supreme court now in office; and by the election of the second judicial district, four members of the supreme court in addition to the four members of the supreme court now in office; and by the election of the third judicial district, four members of the supreme court in addition to the four members of the supreme court now in office; and by the election of the fourth judicial district, four members of the supreme court in addition to the four members of the supreme court now in office. All the justices shall be elected on the first day of January next after their election."

It was then moved by Mr. Van Dyke, of New York, in Senate, Yeas, 5; Nays, 1,000.

The foregoing resolution was only passed a bare majority, and the amendment rejected in favor of the present constitution.

President Mitchell Estimates That 100,000 Men Are Out

REAR ADMIRAL

Rear Admiral Farquhar, in command of the fleet, was a social butterfly who had been at Bar Harbor. His dinner there was the event of the season.

for half an hour. The boys listened to it all with the closest attention, leaning forward with their elbows on the palms of their saddles and their chins up.

In the parade back to the station the cowboys went before the guests. I was a sight for gods and men to see that fine form. One four after another tore out of the crowd and rode like mad down the street, pulling up in three short buck jumps, in position to lean inch, and then at the word they all moved down the hill, not with the hard lunge of cavalry and at the station formed in line, while Gov. Roosevelt and his party got on the train.

The crowd followed the parade and one who carried a banner with the words "I am a Cowboy" waved it vigorously.

And Ready? "What the Hell's the Matter With Teddy?" Somebody asked Buck Ralston what the first two words of the verse were.

"What?" he stammered helplessly, "don't know, unless it's that the boys thought it sounded kind of good."

The train was to run back over the track by which it had come to Chaska, and the boys were to go to the rolling prairie along the Miesau. Gene Roarvick went to the back platform of the Minnesota to have a little look at the brown hills, and the little houses scattered up and down the narrow road, and the fields held in view along the road by Capt. Jack and Sergeant Pete Vincent, but kiy-ying and whooping still and waving their somberness.

"Hi, Teddy," shouted the strepensous boys, "the hills are so good, and I want a shake!" I was on the back-kick when you were on the thistle.

"Bully for you," answered the Gove-

Mackey's white-faced roan shot out of the line. Mackey stood up in the stirrups and his hands and his rope were flying in eccentric curves.

"Wow, wow, wa wa wow!" howled the crowd.

"Say, Daddy," shouted another, "I came in 200 miles from the range to see you."

"Come on, all of you," shouted the Governor.

Mackey could hold them no longer.

With a rumble and a roar they came streaming across the open space and the larks upon the platform and over into the space between the passenger cars and the freight station on the other side. They rode with their heads and their horses' heads up and without a yank at the reins. Flatter they plied in on top of one another until the Governor, who had been leaning on the railing, saw horse and man, hoists and mane, wavy forelocks and leather waistcoats with the

hired outside and hand after hand stretched out for him to shake hands with. Each man in all that hurly burly knew exactly where he was going and what he was doing and gave the Governor a self-possessed handshake as though they were both standing on the platform together. For the first time in the days of motion all the time, squealing, kicking, snorting, while the rider stretched out his right hand to the absolutely happy Governor of the State of Ohio, the rider said, "Thank you, pard." Then the rider would get out of the way to make room for the others who were constantly pouring over the platform. In the widest of the rack of the crowd, the rider had to get out of kilt on half a minute. The rider had to stand in their stirrups to reach the Governor's hands, but they were grinning just as broadly as the most reckless looking cow puncher in the

The train started. One or two of the boys had not reached the Governor. They came after the train, sweeping carelessly over ties and switch frogs until they grasped his hand. Behind them came all the rest, tearing down the track like demons. Capt. Jack came darting to the front then. His purple silk tush ^{was} straight in the wind over his head. He had

del at the Republican State headquarters. He said that "if Washington or Manila were to attempt to take the White House, instead of McKinley, not one of them could have escaped the operations knowing out of the war with Spain, and that the Philippines are not substantially different from that adopted by the McKinley Administration."

"For example," he said, "turn the Philippines Islands over to the Filipino people, because there is no Filipino people, but only a medley of fourscore and ten different races, and you would not understand one another's speech and no occupy different places in the scale of civilization. The Philippines are not a nation. They platformed the first of the establishment of a stable government in the Philippines. That is what we want. When this is fully accomplished, the next step will be to train the Filipinos in the ways of self government. We are preparing to give them all the money and home rule their different municipalities are capable of exercising."

policy against McKinley's Philippine policy as it was against Jefferson's purchase of Louisiana in 1803.

Governor Roosevelt at La Crosse, Wisconsin.

Governor Roosevelt in his speech at La Crosse, Wis., said in part:

"No issue can possibly be of greater importance than the currency, for the present and stable currency is absolutely necessary to industrial prosperity. Very many of Mr. Bryan's supporters in this country feel that he is all wrong on this subject. I am sure there are not a few of them to whom I have alluded to-day. It is all and themself exceedingly correct that he is wrong by trying to pretend that it is not an issue. Yet I think it only did the Kansas City platform to repeat the declaration in effect of free coinage at the ratio of 16

Mr. Bryan himself said: "The party was where it did in 1896 on the money question," and he has again made the same statement since.

"No sound money man, whatever his party affiliations may have been in the past, can afford to support Mr. Bryan now. His success would mean precisely the same disasters now that it would have meant four years ago. If the nation was right to reject him then, it would be guilty of the utmost wrong to itself if it failed to reject him now."

As for militarism, Mr. Inwood said: "I have rather overestimated the strength of the American standing

that this has been done neither once nor twice. Liberty can be given to the islands. But Mr. Bryan's theory is that we should raise the whole question when he says that the first duty is to establish a stable government. Of course that means we are to be judges of its stability, and on that Mr. Bryan's theory can stand. But if we say that the government should be stable than that it should secure liberty and equal rights to all. So you see that Mr. Bryan is definitely committed to the problem that we have to solve. He says that we should give all the full free liberty as well as order in the islands. This is exactly what we are doing and what our opponents in the Kansas City conference are jeopardizing through the encroachments they are making.

"Not merely in the interests of civilization and humanity, but in the interests of freedom, we should stay in the islands until we have done honestly and

THE TRUSTS AS AN ISSUE.

The Bryanite Cry is Simply an Attempt to Arroy the Poor Against the Rich.

All Antitrust Laws in State and Nation are Enforced by the Democratic Hypocrites.

The Democratic campaigners, from Bryan down, have dropped their early program of anti-imperialism and are now crying out against trusts.

Particularly is this true in the case where the great centers of capital, state and local candidates and those who are supporting them are showing "trusts, trusts, trusts." Their outcry is but a thin, veiled attempt to arouse the masses against capital, the poor against the rich, to stir up discontent.

In the trust issue Republicans have long taken the lead, and have done so far abroad. The record is all in their favor, both in state and nation, and the masses in the population which Bryan is leading in the lead of the hard facts refuse to be misled.

The first forward strides of American manufactures during the present protracted national administration, and the consequent steadily growing of such a condition, have resulted in an increase in the number of trusts, and the masses which many people are disposed to look upon as alarming.

In the public mind these combinations are grouped under the general title of trusts. That, as popularly understood, means "monopolies," and the agreement of two or more naturally competing concerns, which establishes a monopoly in the market, or in the sale of raw material or group of an industry.

That is the definition given by the Democratic campaigner, and who may be trusted to be sufficiently comprehensive.

An obvious difference exists, however, between legitimate combinations of capital organized for the purpose of enlarging business and increasing production, and those illegitimate combinations which, by cutting off raw material or manufacturing facilities, curtail production and raise prices. These are the trusts that we are to fear.

An example of trusts of this kind is the case of the trust of New York City, against which provisions, brought by the attorney general of the state, are now pending.

The remedy must be National. Against powerful combinations of capital which seek to control the price of necessities of life or the transportation of goods and manufacture, a law must be national in scope to be effective. State laws will not prevail.

There are many trusts of this kind in the United States, and the laws of the state that forbid their existence.

Thirty-nine states have passed laws to control or destroy trusts, the last of these laws being in the Republican States of New York and Massachusetts.

These laws, however, must be made into a federal law relating to all the states, but Congress has refused to do so.

Complete power to control combinations can only be obtained by an amendment to the constitution.

The Republican leaders last winter introduced a resolution providing for the amendment of the constitution.

The Democrats agreed to support it, but they have not done so.

Every law in the scope for the limitation and control of trusts has been passed by Congress, and none has been opposed by the Democrats.

Reports Sent Out From America.

Yankee Soldiers Here Massacred In Luzon as a Result of Bryan's Speeches.

An American army officer doing duty in the Philippines has sent to a friend in America the translation of a proclamation issued by Aguinaldo last August and published in the United States of America. From the document, which was captured in the New York Times of Oct. 1, the following is quoted:

"Two elements are now existing in the United States, namely, the one who desires the re-education of McKinley and the other who desires the re-education of Bryan."

Recent news from the Philippines in the shape of despatches from General Hiram Shaw, of the Philippine army, has been received in the United States.

The insurgents of the Philippine revolution are reported to have sent out from the United States to the effect that Bryan is likely to be elected again in the next presidential election.

Rock Island, Illinois, recently sent a telegram to the Philippine revolutionaries, in which it was stated that Bryan is likely to be elected again in the next presidential election.

—Hon. Elliott B. Norris, of Sackett Harbor, will be present at the regular feast of Denmark Grange, Saturday evening, October 20th, and will address the Patrons of Husbandry on the great work of the order entrusted to his care. Mr. Norris is an interesting and able speaker, and it is to be hoped that the members may all be present.

—Another of the pioneers of Denmark has passed to that better home where no traveler ever returns. John Hess passed peacefully at his home of his daughter, Mrs. W. V. Vance, Saturday, October 13th, after a short illness. Mr. Hess was married to a large circle in this town and elsewhere where he had resided. He was one of our energetic and successful citizens, and had gained many friends, who always held him in high esteem. He was a great lover of his country and to both old and young. He was born in Verona, Ontario county, in 1814, and when a boy lived at the residence of his father, where he was reared. We have heard him relate many instances in relation to the Ontario district of those days.

—The harness maker's trade and what 18 years ago he came to Copenhagen. Four years later he was married to Miss Margaret Copley, the wedding taking place at Lowville, Rev. Elder Clinton performing the ceremony. Mr. Hess worked at his trade in several of the villages in this county, and for the last 18 years had resided at his home in Copenhagen.

—Another of the pioneers of Denmark has passed to that better home where no traveler ever returns. John Hess passed peacefully at his home of his daughter, Mrs. W. V. Vance, Saturday, October 13th, after a short illness. Mr. Hess was married to a large circle in this town and elsewhere where he had resided. He was one of our energetic and successful citizens, and had gained many friends, who always held him in high esteem. He was a great lover of his country and to both old and young. He was born in Verona, Ontario county, in 1814, and when a boy lived at the residence of his father, where he was reared. We have heard him relate many instances in relation to the Ontario district of those days.

—The harness maker's trade and what 18 years ago he came to Copenhagen. Four years later he was married to Miss Margaret Copley, the wedding taking place at Lowville, Rev. Elder Clinton performing the ceremony. Mr. Hess worked at his trade in several of the villages in this county, and for the last 18 years had resided at his home in Copenhagen.

—He was a good workman and a great lover of his country.

—The day of the evening services at the Presbyterian church have been changed to 7 o'clock. Christian Education service at six o'clock Sunday evenings.

—Miss Ella Decker is leaving town over Sunday and left Monday for New York.

—Miss May Woodworth will join her at New York Friday. Everyone sincerely regrets the departure of these two who will be so greatly missed.

—The past week has been a down in this direction. I quite a contingent went from here to Burnsville to the big rally on Monday evening.

—Henry Hill, C. S. Gell and Henry Prickard played with the Burnsville team.

—Intelligence was received Monday of the sudden death of Rev. Father of St. Louis, Mo., who was the only son of Mrs. J. C. Cook, for the benefit of the Junior League of Antwerp, netted \$3.00, an excellent time.

—Rev. Mr. Owens, (colored) of Watertown, occupied the pulpit at the congregational church in this village Sunday morning and at the Union church in Denmark in the afternoon.

—William H. Cole, of Lyons River, was in town last week and purchased a new house at George's farm, near the one bought of A. Miller, a former mate to the tireless horse. They are a good pair.

—Traveling thirty or forty miles about the country and in several villages, only one saw seven or eight Stevenson portraits in windows, but saw hundreds of McKinley and Roosevelt and Old and New.

—On night last week Mr. and Mrs. Darwin Hubbard, who reside on Oak brook, were here, where they were guests of a surprise party. Forty of their relatives and friends assembled at their beautiful home, a beautiful scene to the mind of the visit.

—We notice that a number of Republicans in this town are to change their places of residence about the first of November. They should bear in mind that this is a presidential year and their votes are needed. Don't lose your votes any consideration.

—One of the best places one can find in this section is the Carthage National bank. From the time the bank is opened in the morning until the night it is one perfect jam. If Charles Wilbur is not a bustling man we do not know who is.

—Aldred Faxon, of his home, Lowville, died recently at his home in the west, just about 70 years of age. He has been very generous toward helping his aged mother in her declining years. Mr. and Mrs. Faxon among our most aged people and are very feeble.

BRYAN THE JUGGLER.

"Juggler and gentleman, this is not full dinner ball trick. I will show you I will make the contents disappear before your eyes."

Get out the Vote?

Every citizen in regard to getting out the vote, when the voters are old and infirm, or when they have no facilities of getting to the polls, should be made to the county commission of each town. Arrangements have been made by the chairman of the Republican county committee with the town's commission, to furnish teams, when necessary, to bring voters to the polls. Most voters can find a way to get to the polls, but back on the hills and in many places ten or fifteen miles away, it is not easy to get out to vote. Look the commission of each town well to the all the districts under his charge and see that the vote is all out.

Every candidate on the republican state ticket from Benjamin B. Odell, Jr. to the last man on the ticket represent the principles of the Republican party. The candidates who were re-nominated deserve well of the state, and the new candidates were selected for their special fitness for the positions they will be called on to fill. Note the whole republican state ticket.

The County Ticket.

Representatives, keep your county ticket up to the state ticket. There is no good reason why Ben John L. Smith for Assembly, Milton W. Holt, for County Clerk and the coroner, should not have the full Republican vote. They are worthy of the votes of all Republicans. Col. A. D. Shaw for Congress and Hon. Elm H. Johnson for State Senator ought to receive the full Republican vote in Lewis county.

Republicans, gold Democrats, patriots and expansionists are all for McKinley. Don't let him have any stay-laws among Republicans this year. Come out, all of you, on November 6th, and help swell the majority in Lewis county to 1,000. We can get majority with less, but the bigger the majority the better. Come out and vote for good men and good candidates, and you will not regret your act.

The latest prediction from the Republican National Committee is that McKinley will have 303 electoral votes, Bryan 112, doubtful 3. The total number of electoral votes is 417, requiring to elect 224. Bryan will have the doubtful votes of the electoral college, their 112 votes, and a chance in the doubtful states of Colorado, Missouri, Nebraska and Nevada with their 22 votes. The indications now are that McKinley will get 303.

THE WHOLE REPUBLICAN COUNTY TICKET.

Bryan has gone home to try and save Nebraska, and when he leaves the devoted state of the south with the great cities for domestic use, he will be well he had stayed at home during the campaign. He has gone over the country preaching class hatred, trying to excite the poor against those persons better off in the world's goods than themselves, ending with Boss Croker and saying "Grant is Tammany, and Croker is a traitor," and talking about and nonsense generally. It is to be hoped that his overwhelming defeat will teach the party leaders which they long have needed.

Marion J. Verdery, a business man of New York city, made a very effective speech at the "Wholesale Dry Goods Republican Club" the other day. He said he was a Georgian and had been a life-long democrat. Speaking about Bryan's accusation that the Republican Administration was building forts near the great cities for domestic use, he said: "Shame on you, William J. Bryan! It is dishonorable to make such a charge! Shame on you, William J. Bryan! Better your tongue had retired away before you attempt to distort the peace of a people, incite civil war, and arm a class of men against another! Shame on you for your assault on the flag!"

Perhaps it would not be fair to hold the Bryan leaders responsible for the conduct of the hoodlums and anarchists who have tried to break up public meetings, and incited and abused such leaders as Roosevelt and Dewey, but the result of the teaching of Bryan, who is trying to stir up class hatred and array the poor against the rich. But the sensible voters are in a majority and next Tuesday will record their verdict against Bryan and all his dangerous teachings.

Dear Doctor—When I came two or three days ago I did so because I had exhausted all the remedies the doctors in my own country could give me. I had confidence in your theory and knew that you were a man of great experience about your practice. I was used to have Bright's disease, diabetes and spinal complaint, and generally in poor condition. I had no rest and no living. I spent most of my time in bed. I had been told that you

HAWAII, May 8.—The postal frauds have been the principal topic of conversation in Hawaii to-day, although as yet the papers have scarcely alluded to the matter. The department of posts admits a shortage of \$75,000, but further investigation has brought to light the fact that in July of last year the receipts showed a falling off of about

2,000 over the average of the months previous and that this shortage has been kept up ever since. It appears that about that time Director of Posts Rathbone gave orders for the destruction of \$11,600 worth of surcharge stamps, on account of the issue of a new stamp, his work of destruction was left in the hands of Charles F. W. Neely and his assistants, but it is now believed that one of these stamps, now discovered,

and for the first five days of May is aggregating \$8,000. Should this average be continued, it would mean a total of more than \$40,000 for the month.

That others than Neely are involved implicitly believed, although the evidence as yet is not sufficient to justify their arrest. Nevertheless, should certain persons attempt to leave the island they would be taken into custody.

WORK OF INCENDIARIES.
Hotel at Geneseo Burned—Two Men
Lost Their Lives.

On the morning of the fire, most of the guests barely escaping with their lives. There were about 40 guests in the hotel, the number being unusually large owing to the holding of the May term of the Supreme Court here. At first it was thought that all had escaped from the burning building, but a search after the fire had been gotten under control, resulted in the finding of the bodies of five guests—James and Sherman de Ro-

ing evidently been suffocated by smoke. It is thought that a woman lost her life, but her identity is unknown and the body has not as yet been found.

Miss Schreiner, a waitress employed at the hotel, says she was awakened by hearing two men plotting to set fire to the hotel. The men were in an alley at the rear of the hotel building.

Building was discovered to be on fire. The flames, which started in the rear of the establishment near the kitchen, spread with great rapidity. The loss on the building and contents \$10,000 to \$15,000; insurance about one-half.

Hatching of Tent Caterpillar Eggs.
Mr. Editor:—Many remember the abundance and voracity of these cater-

destructive this year. Some difficulty was experienced last season in killing the pests with poison after they had become nearly full grown and many trees were stripped in spite of the spraying. As caterpillars are hatching rapidly now, while the pests are small, more easily killed and have caused little damage, is the time to spray all trees showing their presence. Use paris

ed one pound time, and keep the
 store well agitated while spray-
 ing. progress. Other arsenical
 is used in a similar manner. These
 measures are advisable only for orchards
 and the more valuable shade trees and
 not recommended for sugar bush or
 trees. Very truly yours
 E. P. FELT, State Entomologist.

The first system of musical notation for 'The Rose Tree' is in 2/4 time. It features a treble clef and a key signature of one sharp (F#). The melody is written on a single staff and includes various musical notations such as eighth notes, quarter notes, and rests, with some notes beamed together.

The New Year.

We are at the dawn of the twentieth century. Nineteen hundred years have passed into history according to our calendar, reckoning from the birth of Christ, but all the centuries the last one hundred years has witnessed the greatest development of Christianity and the most remarkable steps in science, commerce and educational appliances. The great reformation inaugurated by Martin Luther five hundred years ago, for liberty of religious thought, has, in all the years since, done in Christendom what John Calvin, and on to the time of our own people in Washington, had its tremendous influence in the progress of the human race. Luther and Ridley were burned at the stake in England for their religious opinions; and three hundred years ago, and men were drawn on the rack and tortured in the Spanish Inquisition, about the same thing. Thank God, that the glorious light of the dark ages has been dispelled, and the human race has been brought to the dawn of the twentieth century.

The centuries have grown better. In 1800, when the world was first first produced, but when the world had planned its way among the nations, the blessings of education and good government were followed. The English speaking people are destined to rule the world, and they are doing it. They are following good, strong governments, followed by universal education, railroads, electricity and all modern inventions for the benefit of mankind. But the real glory of all the centuries has been the one new coming of the world, the United States has been in the world. Statistics show that in exports we have all nations. We are the greatest nation in the world, and we are the greatest nation in the world. We are the greatest nation in the world, and we are the greatest nation in the world.

We have a population of 76,000,000 of people and by natural increase, they are the most vigorous and intelligent people on the face of the earth. And what other country has in itself all the products, both vegetable and mineral that go to sustain its population without the assistance of any other country. Our inexhaustible power and fuel, our silver and gold, our copper and iron mines, our wheat and corn, our cotton, our cattle and horses, everything, enough to supply our growing population, and in addition, the services of the people of the old world. The New Year dawns auspiciously, especially in the United States. Almost every industry has an encouraging outlook, and the country-wide scene is one of a promise of good results far exceeding anything in our past history. The recent boom of all the millions of free will enlightened people, in that the growth, expansion, power and influence of this magnificent republic may at all times be governed by wisdom, and extend and extend to all people under the sun.

CUDARY BOY HOME.

What are the present prospects of the domestic party? A report of the Chicago platform, but it may not be all that bright.

At the beginning of the century English was spoken by 2,000 people and now it is spoken by 130,000,000. Among the triumphs of the nineteenth century that of the first.

Governor Roosevelt is leaving the Executive Chamber in a few days. He has removed Dr. Peter M. Wise, President of the State Commission in Lunacy, from office. The salary the doctor has been receiving is \$7,500 per year with \$1,000 annually for expenses. The reason given by the Governor for removal and that the doctor has been guilty of gross impropriety in soliciting subscription to the "Copper Hill Mining Company," of which he is President, of his official subordinate of both sexes including superintendents, doctors, attorneys, heads of private asylums, etc.

Such conduct of the Governor cannot justify the removal of the doctor. The doctor has been removed from office, and the Governor has been removed from office.

MISSION OF CHRIST.

IT WAS TO TEACH THE WORLD
GOD'S LOVE.Dr. Talmage in his sermon
on the mission of Christ
at the American Church
last night.WASHINGTON, Dec. 23.—The
discourse Dr. Talmage delivered in a
new way the secret of the world's
disturbances and deliverance. His
text is John 1, "God is love."Perfect understanding would lead
to a comparison between the at-
tributes of God. They are not the
attributes of a being who is a
higher power, but like the ocean with
level and depth a profound depth.
We know the presence of love. We
would not dare say whether its
depth is as deep as the ocean or
as deep as the love of God.What is CASTORIA

County News

DENMARK AND DEER RIVER.

Notes on the "News," the Farm and Matters of General Interest to the Public.

—Hattie L. Agins is passing a while in Lowville.

—Sunday night's freeze was a tough one for all vegetation.

—The cold wave struck us with snowfall in the air.

—Mr. and Mrs. John Parker went on a business trip to Adams last week.

—Edward Austin has started out delivering fruit trees and shrubs.

—A lady friend of Waterbury is receiving boxes of cheese shipped from the Standard factory Monday.

—Mr. and Mrs. John Parker now occupy the Franklin Austin house.

—George W. Parker has engaged with W. R. Hill & Son to be in their store.

—Miss E. Glazier, of Carthage, has been visiting her sister, Mrs. J. P. Plummer.

—Mrs. A. E. Kilby, of Carthage, was the guest of Mrs. E. Paist on Friday last.

—Mr. Woolley is changing the complexion of his stand with a coat of paint.

—Mrs. E. Sanford returned last week to her home at Natural Bridge.

—Miss Edith L. Parker, of Carthage, is visiting her grandfather, William Everett.

—W. R. Hill and E. Hancock, two of our horse fanciers, have exchanged single horses.

—Arbor day exercises were appropriately observed by the Deer River village school.

—There has been some fine catches of suckers in Deer river since the high water subsided.

—J. C. Wiggins has purchased Miss J. Parker's place in this village, which he now occupies.

—The attending physician of Mrs. W. R. Hill, of Carthage, reports much improved at this writing.

—Hay is what is eagerly sought for this season. Only little of our stock are feeding closely, more so than for years past.

—New potatoes continue to bring their milk to the Standard factory.

—Mr. Austin is making eight cheese per day of 40 pounds each.

—William Whitford is moving to his newly purchased home here from Denmark.

—Mr. Whitford is a first-class barber and is needed here.

—The "free opening" of the Deer River bridge, under the new bridge, landed Douglas, the new proprietor, on the night of the 1st inst.

—Sixty-eight horses and mules went out of Denmark the middle of last week to the Crogan pastures for the season. The Francis territory feeds a hundred head.

—Mrs. A. Potter accidentally fell from a chair while cleaning some recently and hurt herself very badly. She did not return home in bed after the accident for a time.

—George Barnd pulled from his garden a horse-radish root that measured four feet and one inch.

—The root is on exhibition at Mr. Barnd's place.

—Often we hear men say that they clean away from home at house-cleaning time. Only talk of house-cleaning at such times. She needs all the help and sympathy possible. Do not desert her.

—A full programme was said to have been carried out by the citizens of Denmark during Saturday night.

—The topics of the evening were of such a nature as to bring out the best of practical suggestions from those who took part.

—The question relates to present will, will there be a repetition of the great droughts which prevailed in this country during the latter part of 1892 and 1894, when they continued to increase each year? It is certainly to be hoped that this will not be repeated.

—The Kelley stone saw mill on the Frank Powis place in the range of swamps above Denmark, was last week in operation since early last fall, closed up its large stock of logs last Saturday. A vast amount of lumber has been cut by Mr. Powis and another large lumber job for the present season.

—One thing is certain, that farmers should procure a list of the numerous and perplexing questions to be asked them when the doctor comes around next month, and be prepared to answer them correctly.

—Dr. G. D. Hewitt, of West Carthage, was here yesterday, holding the ribbons over the beautiful pair of Rocky mountain ponies, now nearly pure white. The doctor formerly got this noted team together, but for a few years past they have been owned at Carthage. They are "tweeters" and the doctor knows it.

—The census districts for the town of Denmark have been divided by Deane River. Enumerator W. R. Hill has under his supervision all that portion of the town north of the river, including "Hill's" of Copenhagen within the limits of both sides of the river.

—Mr. B. D. Hunt has that portion of the river taking in the town of Denmark and Carthage.

—Spectacles.

—Eyes tested free of charge. All spectacles fitted by use of highly guaranteed. E. A. Allen, Jeweler and Optician.

 "What have you learned concerning this reformer Tung Foo Pong?" inquired the grand old man.
 "I have learned that your imperial infidelity, that he is a man of dangerous popularity whom it would be well to let alone."
 "You think it safer, eh? And why?"
 "Because, madam, he has a wise young lord on his shoulders."
 The empress laughed contemptuously.
 "Bah!" she said. "I can easily remove that objection."
 And, turning slightly, she beckoned to the imperial handmaiden—Cleveland Plain Dealer.

THE NATIONAL CONVENTION.

Delegates All Selected For the Great Philadelphia Gathering.

The List Includes Many of the Notable Men in Public Life.

Unanimous Sentiment For President McKinley's Re-election—A Crowd Expected.

Arrangements are practically completed for the national convention of the Republicans to be held in Philadelphia on June 10. Under the call of the national chairman, the delegates will be selected by the various state conventions. It is expected that the delegates will be selected by the various state conventions. It is expected that the delegates will be selected by the various state conventions.

At various points along the main canal or distributary lateral branches are diverted for conveying the water to local industrial concerns, and it becomes necessary to place regulating structures at the points of diversion. These consist of wooden, bridge-like structures in which sliding gates or sluices, raised or lowered by means of the main canal, regulate the flow of water through the distributaries.

When it is desired to deliver into a lateral a given volume of water, the ditch rider can raise the water table, and the water will flow through the distributary. When it is desired to stop the flow of water, the ditch rider can lower the water table, and the water will stop flowing through the distributary.

Arrangements have been made for entertainment of the visitors in Philadelphia. The city is expected to be a great success. The city is expected to be a great success. The city is expected to be a great success.

—Mr. McDonald expects to get in 10,000 cords from this job, which is in those other portions of the county.

—The vicinity of Deer River is noted for its deep and productive soil. J. C. Higgins recently plowed up an alfalfa root on "Grassland farm" of eight years growth, which crop had been cut twenty times, that measured 6 feet and 3 inches in length. It was on exhibition at the grange here.

—The patron of husbandry are looking forward to a general good time at the meeting of the Pomona grange to be held with the Copenhagen grange, June 7th. The coming meeting is expected to be no exception to those heretofore held with the large and prosperous grange of Copenhagen. Let there be a general rally from the different granges in the county.

—We recently called at "Prospect stock farm" and found the proprietor, J. R. Agens, ready and willing to show his fine stable of horses. His famous Benton stallion is a grand specimen, as he carries all the trotting propensities in his general contour. He is a model of perfection. The little filly by the side of its noted dam, with a fast record, is bred in the purple and it would take a large sum to purchase her.

—Dandelions are proving to be a drawback to the farmers of this country. Each year more and more appear and they run out their roots, and in the same time their roots furnish the soil with enriching material to stimulate the growth of other crops. Dandelions furnish but a small amount of hay, as the top is short. For pasture they answer better and are relished by all kinds of stock. Fowls are great lovers of the blow.

—Prof. E. P. Felt, of Albany, state entomologist, gave the first of a series of lectures at Grange hall in Denmark one evening last week. Subject, "Our injurious insects." The lecture was one of vast importance to the farmers and fruit growers present. Prof. Felt exhibited specimens of all the different bugs and injurious insects that inhabit the country at large, and a remedy for the same. A chart in connection was explained to the audience. A male chorus, composed of H. E. Cook, Rev. W. H. Rowe, A. Archer and A. C. Pickett assisted in making the evening's entertainment one of rare enjoyment. Other lectures will doubtless follow.

—Notice to Farmers.

Charles Dryden will ship cattle and calves Saturday forenoon, June 2nd.

TOWN.

—Our public school will close June 15th.

—Ernest M. Riggs spent Sunday at his home in town.

—Be ready for the census enumerator, Friday, June 1st.

—Miss Bertha Williams expects to return to Watertown next Saturday.

—Mrs. L. T. Strong is entertaining her friend, Miss Julia Wood, of Woodbury.

—Miss Ruth Clover has been entertaining her friend, Mrs. Slocum, of Utica.

—William Hovey is slowly recovering from the painful and serious injury to his hand.

—C. R. Lee, of Watertown, was in town over Sunday on a visit to his invalid mother.

—Miss M. Louise Jones has improved sufficiently to be able to walk out a short distance.

—Twin friends of Chauncey Colton, of Boonville, are sorry to learn of his serious illness.

—H. Ray Cornish, who is a commercial traveler, spent last Sunday at his home here.

—Mr. and Mrs. Arthur Weller, of Utica, have been spending a few days with Arthur Miller.

—William Griffith has gone to the Fulton Chain for a few days to do some work for H. M. Riggs.

—Rev. Mr. Fenner, of Port Leyden, and Rev. E. C. Petrie will exchange pulpits next Sunday morning.

—Newcomers in town are Mr. Hartley and family, who are occupying the Richard Owen place on West Main street.

—Children's day exercises will be held by the Presbyterian Sunday school June 10th at the regular hour for morning services.

—Will Dewey left Friday evening for New York, where he has engaged with the Lighthouse Valley railroad as inspector of signals.

—The members of the Tennis club have their court in excellent condition and are improving these fine days training up for the season.

—Although the clouds obscured the sun to a considerable extent, we were able to get occasional glimpses of the eclipse Monday morning.

—The teachers of our public school expect to attend the teachers' association, which is to convene at Lovell this week Friday and Saturday.

—The fine weather of last Saturday evening drew quite a crowd of people into town to hear the band concert, which was given by the Lighthouse Valley band.

—Arthur Miller is in receipt of an invitation from the war department to attend the military exercises to be held at the West Point Military academy in June.

—Wellington Jones has been absent from his post in William P. Williams' office the past week, being obliged by reason of illness to go to his home in Lovell until better.

—Notice for the collection of the notary tax has been posted by Collector E. G. Williams, who will receive the same at the drug store of R. N. Evans at one cent per. fifteen days.

—The ball game played on Tuesday night between the two town teams was a close one.

—The Turin team sold ice cream in the Holden block in the evening.

—Rev. Mr. Benson preached a memorial service in the Baptist church Sunday morning. The members of the G. A. R. attended in a body. The church was handsomely decorated for the occasion and the service throughout was very appropriate and impressive.

—The Woman's Home and Foreign Missionary Society of the Presbyterian church will meet next week Friday, June 8th, at the home of Mrs. Hayley Kenner. Spiritual topics, "Lessons from seed sowing and harvest," Matt. 13; topic for missionary study, "The Freedmen." All those interested are cordially invited.

—The memorial day observed by our citizens with appropriate exercises at the school children gathered at the school building at nine o'clock and formed into line and joined the veterans, the band and citizens in the march to the cemetery, where an appropriate address was delivered by Rev. E. C. Petrie and the graves decorated.

—We notice that as usual numerous attractions in the way of sports, dancing parties and excursions are advertised for Memorial day. It would seem that any person with any sense of the fitness of things whatever would not be persuaded to join in any of these hitheries on that day, sacred to the memory of our brave soldiers. It would be a quiet proceeding to attend a funeral or to celebrate the same with a hall game, or an excursion, to say nothing of the insult that such doings are to the families of these soldiers, and whose feelings are so cruelly sacrificed by thoughtless pleasure seekers.

—A kind and devoted wife and mother, Mrs. Lillian Carpenter and Miss Edith Pritchard, who were visiting at the home of Mrs. Pritchard, died at her home on Welsh Hill at an early hour Tuesday morning. She had been ill for several months, and last Friday a change for the worse occurred and she steadily failed until death claimed her. Mrs. Pritchard was born in Carthage, N. Y., on January 1, 1840. She was married to E. B. Pritchard, May 30, 1857. They resided in Carthage until August 30, 1891, coming directly to Turin, where she resided until her death. Twelve children were born to them. Two only have passed over to the other shore, Ellen, March 28, 1870; David, August 29, 1872, the following year having lived to brighten her days when she died upon her. Thomas, Evan R., Noah and Henry, of Turin; John and William, of Port Leyden; Mrs. Maggie Bliss, of Rockwood, Oregon; Mrs. Anna Pearl, of Martinsburg; Mrs. Lillian Carpenter and Miss Edith Pritchard, and an obituary neighbor, a kind and devoted wife and mother. The care and rearing of her large family of children necessarily kept her much at home and prevented her from taking any prominent part in outside affairs, and it is in her home that she will be sorely missed. Her family have the sympathy of their friends in their bereavement. Her funeral will occur from the house Thursday at 2 p. m. Rev. E. C. Petrie will officiate. The burial will be made in the cemetery.

Editorial Comment.

The Philadelphia convention can well afford to endorse the St. Louis platform of 1896. It can be offered as an exhibit of what the Republican party does in the platform process of the nation.

The prosecution of Neely and his associates for the Cuban postal frauds is being vigorously continued by the Administration, and will not cease till sentence has been pronounced on the guilty.

The Republican party has persistently endeavored to strengthen and uphold the American gold standard. The Democratic party has just as persistently opposed such a policy at every possible opportunity.

Brig. Gen. Theo. Schwaner is reported to the War Department as being one of the most of the large forces in the Philippines are garriaged by American troops. More trouble is caused there by the Filipino brigands than from any other cause.

The policy of expansion, which gives us a foothold in the East, which will open a new market in the Philippines, and enable us to increase our commerce with China, will be of great benefit to all our people, and especially to farmers and wage-earners.

New York bankers have loaned France \$15,000,000, and would be pleased to do a little more economic dating in that particular line. They must be prosperous when our bankers are compelled to go away from home in order to find people to loan their money to.

The Colorado sheep that was worth only \$1.32 in Cleveland's last year now sells for \$2.30, and the number of sheep in the state has increased 50 per cent. in the same time. During the present administration the value of sheep in Colorado has advanced \$7,750,000. The gold standard and Republican rule are good things for industry among the Rockies.

The Republican convention for the two assembly districts of Jefferson county placed in nomination by acclamation for the assembly, Hon. Morgan Bryan, of Adams, in the first district, and Hon. Charles O. Roberts, of Philadelphia, in the second. The platform also includes in forming Philadelphia. Inspected state delegation unequivocally for Gov. Roosevelt, congressional delegates for Col. Shaw and senatorial delegates for Hon. John K. Brown.

A new coin, a three-cent piece, was authorized by act of Congress to take the place of the old coin which was so much like a dime that it was stopped. The new three-cent piece is ordered to be made of nickel, the size of the old bronze cent, only thicker. In the center is to be a hole one fourth of an inch in diameter. This will make the coin easily distinguishable by weight or touch. It will be some time, however, before the new coin will be in circulation.

The trusts are not having things their own way by any means. The directors of the Ice Trust of New York, have been summoned to show why they should not be proceeded against criminally on the charge of conspiracy. They are accused of retaining and preventing competition. There is no tariff on ice, therefore it can not be an object of protection. Its purchase has been traced directly to Tammany Hall, which is holding the post of New York and depriving the people there of a valuable necessity.

"Have you heard the news from Oregon?" This was the query which the Democrats were ready to put in their fellow countrymen on the day before the election in that state. But they will not put it. Their organs all over the country were saying that Oregon was a doubtful state, and that it would be earned by the Democrats in the election which has just passed here. All the doubt that is now left by the majority regarding the majority which Oregon gave McKinley in November is as to whether the lead will be 15,000, or only 10,000 or 12,000.

So far as can be ascertained there are but fourteen left of the delegates who attended the first national convention of Republicans, held in Pittsburgh in 1856, and it is pertinent to hope that these venerable men should be invited to occupy seats on the stage at the forthcoming national convention in Philadelphia. These survivors of the first national convention should be the republic, abolished human bondage, made American influence a living force for the betterment of the world have lived to see the country they helped to pattern—what inspired the formation of the Republican party gloriously vindicated by the logic of time.

The presence at the approaching convention as the guests of the party at large, will give interesting glimpses into the past and interest to the proceedings of that assembly. They will there discover that the party is still true in its high ideals, still loyal to the principles of liberty, justice, and peace, and still unflinchingly entrenched in the confidence of the people.

In 1896, President McKinley said: "I hope that the time will not be far distant when every workman in this country can get work, and get it at fair and remunerative wages. The time was not far distant, and it is still with us."

—Tammam is anxious to subject a "wrecking campaign" at home into the national campaign. At the New York state, Tammam has to defend himself against its record for the highest tax rate and for its Tammany lie trust. Reform should begin at home.

The only piece of national legislation for which the Democratic party has been responsible, since the election of Abraham Lincoln, is the Wilson-Gorman tariff bill, a measure despised by its authors, hated by its sponsors, and with wrought ruin to the hands of those who tried to be its friends.

President McKinley does not think it beneath his dignity to go to the capital during the closing hours of a session of Congress, to sign bills, as Mr. McKinley did on the 10th of June. The President's room sign/ hours Wednesday and again Thursday, and signed a number of bills, including the Naval Appropriation bill, which was bitterly fought over for several days.

New York Dairy Market.

New York, June 13.—The weakness noted in our market yesterday by heavy receipts of very dull grades of milk, and the decline of fully 1¢ a pound on all grades of milk, has been followed by the market. The local trade is buying only a little of the top quality (creamery) but not much of the rest. The orders and supplying of a few outside speculators, the bulk of the receipts were not into the market for account of receivers. New York state dairy, imitation creamery and ladle makes are more plentiful and lower. We quote:

—Creamery, 100 lbs. per cwt. 14.00
—Butter, 100 lbs. per cwt. 14.00
—Milk, 100 lbs. per cwt. 14.00

—Exporters took everything in the shape of large size champagne full price, paying 9¢ to 10¢ for dead white, 9¢ to 9½¢ for colored and 10¢ to 11¢ for yellow white. Small sizes were more inquired for with 1½¢ to 2¢, the grading prices. All grades of champagne were dull and prices are nominal.

—Full cream, 100 lbs. per cwt. 14.00
—Butter, 100 lbs. per cwt. 14.00
—Milk, 100 lbs. per cwt. 14.00

THE CHEENE TRADE.

System May be Done Away With.
The time is near at hand for the making of cheese contracts, and many

therefore will be interested in the statement that a movement has of late been agitated in New York, Chicago and other large cities, among the largest dealers in this country, looking towards

ing in future deliveries. It has been the practice among many large cheese dealers to begin making these contracts in the fall, when the season's production is agreed to deliver to large distributors. The houses a given number of cheese per month at a stated price, without regard to the market at the time of delivery. If the market fell, the dealer would be obliged to buy cheese in the country to cover them. The trouble with this arrangement, as far as large cheese dealers are concerned, is that when the market was high at the time of delivery, they were made, everything was lovely. When the market fell, they were obliged to buy cheese according to contract, and were obliged to sell it at a low price to the distributor; but when the market was

the other way, and the distributors found that they had to pay too much for their cheese under the contract, the trouble began. When the monthly delivery was made they found fault with the quality, rejected cheese for every conceivable reason, and having the cheese in their possession, perhaps a thousand miles from the home of the large dealer, they were often able to dictate terms, and the cheese dealer was obliged to accept a price much

lower than his contract. This condition of affairs has worked to the disadvantage of the cheese dealers, because when their contracts lost money they had to stand it, and when they made money they were deprived by questionable means of at least a large percentage of their profits. It is proposed by many large dealers to bring whom this subject has been referred to contract no cheese until the cheese is made and in the warehouse. When they can show

the goods and settle on quality, and also know just what the cheese cost. This will remove largely the speculative fee

the larger buyers of this country. There have been several meetings held in different parts of the country looking toward the expansion of this

The State Fair Commission.
ALBANY, Sept. 10.—The governor has signed the bill of Senator Ambler providing for a commission to govern the state fair and taking possession of the property for the year.

Under the provisions of the bill the governor has made the following appointments:

Frederick C. Stevens of Attica, Harry Hamblin of Buffalo and Charles Herbert Halcomb of Syracuse, for the term of three years.

Eliot B. Norris of Sodus, George L. Wilber of Oneonta, and Samuel D. Willard of Geneva, for the term of two years.

James H. Durkee of Sandy Hill, George A. Smith of Frankfort and Frank D. Ward of Batavia, for the term of one year.

In addition to these, Lieut. Gov. Woodruff and Commissioner of Agriculture Wieting are designated in the act as members of the state fair commission.

How to Attend the Matinee.

The 25th, 24th and 25th of April will provide an opportunity to attend at the open house in Ulica the greatest musical event that has ever been presented to this community. This is not provided solely for music-lovers, for the

character of the music to be presented is such that the ordinarily trained ear will enjoy the entertainment from beginning to end. The Boston Festival Orchestra of forty-one pieces will provide the music, and with the one hundred and fifty chorus singers, the volume of sound, the strength of the music and the power of the oratorio will be brought out with splendid effect. On

the afternoon of the 25th a popular concert is provided for the matinee, and in the evening the oratorio, "Elijah". This oratorio is considered one of the best and also most pleasing to the general public. The matinee seats will not

be placed on sale until the 18th of April at the box office of the Union opera house. This is to enable people desiring to go to the city for two entertainments, one a concert and the other an oratorio, to be able to attend both in the same day for the one transportation on the railroad.

It will be understood how well the soloists have been selected, when it is said that if Madame Nordica had been added to the list the best of the musical world would appear together at Utica for the Festival. On the attendance of the public and their appreciation of the music presented depends whether the

REPUBLICAN NOMINATIONS.
The President.
WILLIAM MCKINLEY, of Ohio.
For Vice-President.
THEODORE ROOSEVELT, of New York.

THE NATIONAL CONVENTION.
The National Convention held in Philadelphia the present week was the twentieth national convention held by the Republican party, and the third convention of that party to be held in Philadelphia. In more than one respect the convention of 1900 resembled the Republican convention held in Philadelphia in 1876. This year the Republican party was unanimous in electing the re-election of President William McKinley, and in securing Jesse A. Shafter of 1896, and in securing William J. Bryan for Vice-President.

It is estimated that the Chinese Boxes under 4,000,000. In view of this information the fight will doubtless last several months.

The nomination of W. J. Bryan for President by the Democratic convention was assured. He has by inscription 76 votes more than are necessary for his nomination.

Real Admiral Sampson won his case before the Court of Claims and will receive \$8,885 as his share of prize money as commander of the American fleet which destroyed the Spanish fleet off Santiago. Rear Admiral Schley, as next in command, will get about \$3,000.

Mr. Gladstone, widow of the late William R. Gladstone, the English statesman, died last Thursday. She was 88 years old and had been slowly sinking for some time past at Hawstead Castle, London, the family seat.

Richard Olynthe Bart, of Hawstead Castle, and was married to Mr. Gladstone in 1892. He died May 10, 1898. She was a woman loved and admired by the very circle in which she moved, and had great influence over her husband's actions.

Senator Chandler is out in a long line of waiting the Republic of the United States, but he is not in over confidence, in which he points out, success which have been won upon false issues and in the face of what he calls absolute certainty that the other side would win, and calls upon the political craft that what ever happens, "It is the party in power that always suffers." Mr. Chandler concludes by saying: "To sum [all up], we ought to win, but we will not, but we will not know that victory is ours until we know that victory is ours."

The Republican National Committee will be asked to sanction the use of graphophones in the campaign, and if they agree all of the important Republican speeches made during the last session of Congress will be repeated by graphophones in all sections of the country.

Cyclones containing a high degree of speeches by such prominent Republicans as Senators Allison, Dewey, Fairbanks, Spooner and Wolcott, and Representative Cannon, Hull and McLean, and all the "chaps" in the field, in order that the committee may have an opportunity to judge the effect of graphophones.

John B. McLean has sent his personal check for \$25,000 to J. P. Morgan to back his campaign. This information, coming from Columbus, O., is also coupled with the statement that McLean's plans are well formulated.

Immediately upon his return from Europe, Mr. McLean will begin work on the line of securing the nomination of McLean Democrats to the legislature to be elected a year from next November.

This is the line of carrying the message to the voters of China, who are being disheartened at a cabinet meeting. There will be no change in the attitude of this government, which is to keep our fingers out of the internal affairs of China and to continue to protect the Americans and American interests. There remains to fear that the Chinese revolution will result in an international war in which one or more European powers may be involved.

The demand for his nomination and the election which he has made, is wonderful and a just tribute to his sterling character and great abilities, and evidence that his name adds strength to a ticket certainly is elected.

By a series of acts of almost incredible folly, China has invited the civilized world to do the worst of it. It is not because of any self-restraint on her part, but because the powers are reluctant to carry the government with a proper understanding of the situation or consequence of its course.

No other nation could do as the Middle Kingdom has elected to do without incurring a deplorable resort to the arbitrage of arms, but the present attitude of foreign relations in the country demonstrate an irresponsible childishness, or perhaps an insane perversity, that trips the doubt if it is to be regarded to do these things.

The thoughtless and the thoughtless of the Taku forts is the natural prodrome. If it is the close of this war may witness such a tragedy as has only been seen when world empires have followed.

Since the outbreak of the Sino-Japanese war, China, the responsibility must be laid in very large part to certain of the civilized powers. The intervention of Russia, indeed, was a factor in the war, but it is the close of the war with Japan, which the latter was deprived of the fruits of victory and her program of forming the Celestial Empire was wrecked by the intervention of the European nations, prevented a peaceful resolution of the affairs of China and led directly to the present bloody struggle.

The attitude of the European nations, however, is not to be held responsible for blame, but to relieve the situation.

THE PLATFORM

Foundation of the Principles of the Republican Party.
The platform is as follows:
The Republicans of the United States, their chosen representatives, meeting in national convention, looking back upon an unimpaired record of achievement and looking forward to a great field of duty and opportunity and appealing to the judgment of their countrymen make these declarations:

The special issue which the American people, trusting from their countrymen, have entrusted to a Republican chief magistrate and a Republican Congress, has been met and satisfied. When the people that assembled at the polls after a term of Democratic misgovernment and misadministration, saw that industry paralyzed and the national credit disastrously impaired, the country's capital was hidden away and its labor distressed and unemployed, the Democrats had no other plan with which to improve the retrograde conditions which they had themselves produced than to coin silver at the rate of 16 to 1. The Republican party, denouncing this plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of a legislative measure—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to execute laws. This commission has been executed and the country is now in a more prosperous condition than it has been for many years.

FISHES WITH LUNGS.

QUEER CREATURES THAT LIVE ON LAND OR IN WATER.

One Specimen That Lives Buried Under the River Bed During the Dry Season—Lungs of the Fishes.

Every one knows that fish breathe in a different manner from that of the greater number of animals, and that they get the oxygen necessary for their life from the water and not directly from the atmosphere. Water dissolves a certain amount of oxygen, and the gills of fish take this out of the water as our lungs take it from the air. The gills are very thin and are torn or injured by slight violence. Mud, sand, or stones of any of the many sorts that are found in the water, or irritate them, so that they are not able to take up the oxygen. These gills are called "gill rakers," and are found in the water. But all fishes are not dependent on their gills. Some of them, like the lungfish, have lungs and can live on land. The lungfish is a very curious creature. It is found in the water, but it can live on land for a long time. It has lungs and can breathe air. It is a very interesting creature.
